

8 October 2020

The board of directors of the Tesla Club of Southern Arizona will continue our suspension of any in-person club events for the foreseeable future due to the novel coronavirus. We, the board, with the best interests of our members and the community at large do not wish to engage in any formal or sponsored activity that might be responsible for the spread or contraction of this novel coronavirus.

We are working on several Zoom events that will be announced via our email list. See our website for how to sign up for the email list. If there is a Zoom format event or workshop you would like to see, please let us know. The same goes for ideas for in-person events in the future, we have a list and it is growing and your ideas are welcome.
